

TWO COASTS' HERDING

Herdingclinic with Tanya Wheeler
October 16th until 20th 2019

Moin Moin, (as we say in northern Germany for hello)

We are very happy to announce that Tanya Wheeler from Canada will be giving a herding clinic at our place 2019 again. If you want to know more about Tanya have a look at her homepage: <http://www.tuckercreek.net/>.

We offer sheep and ducks to work on and have different sized pens and an ASCA trial arena for the training sessions. The clinic will be customized to the needs of each individual dog and handler and their level of experience. If you have any wishes just let us know. This year we want to change our clinic concept to try to get even more effective. So we offer the theoretical part the evening before, Wednesday the 16th at 17:00. The next 4 days we work our dogs on stock. We will make groups of 3 people as a trainingsteam. After all 3 finished their training with Tanya, you can go on training and help out each other. The second round with Tanya starts with reflecting how it worked.... This is an offer to everybody but no must do.

There are many opportunities to walk your dog close by. Please clean up after your dog. Keep the dogs on leash on our property and make sure they don't bark continuously when waiting for their turn. We want to keep our neighbors happy ☺. All dogs need to be up to date on vaccination and have a valid 3rd party insurance. Owners are liable for all damages their dog does to the stock, other dogs or our property. We treat our live stock with respect and wish you to do the same.

Please bring weather proof clothing and shoes and maybe a camping chair.

Please notice that publishing foto and film material from the clinic in the web is only allowed after checking with us first.

We have enough space for tents and campervans on our property. Other alternatives are:
